SUMMARY

MERN Stack Developer with hands-on experience building full-stack web applications using **React, Node.js, Express, and MongoDB**. Developed and deployed **3+ end-to-end applications** featuring authentication, payments, REST APIs, and responsive UI. Strong foundation in SDLC, debugging, and writing clean, scalable, maintainable code.

TECHNICAL SKILLS

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Material-UI

Backend: Node.js, Express.js, Java

Database: MongoDB, SQL

State Management: React Hooks, Context API

Tools & Practices: Git, GitHub, Postman, VS Code, REST APIs, JWT, SDLC

EXPERIENCE

Full Stack Developer Intern

Revamp Academy | Apr 2025 – Jun 2025

- Built 3+ MERN stack applications including landing pages, validated forms, review systems, and leaderboard modules.
- Developed and consumed RESTful APIs using Node.js and Express, enabling real-time data updates between frontend and backend.
- Designed responsive UI components using React and Tailwind CSS, supporting desktop and mobile devices.
- Improved application performance by ~25% through optimized API calls and component re-rendering.
- Debugged and resolved 15+ UI and backend issues, improving stability and usability.
- Participated in code reviews and followed SDLC best practices to ensure clean, maintainable code.

PROJECTS

UnStyle – E-Commerce Web Application | MERN Stack

- Built a full-featured e-commerce platform with product listing, cart, checkout, and order management.
- Implemented JWT-based authentication and secure user sessions.
- Integrated Stripe payment gateway to simulate real-world online transactions.
- Used Cloudinary for image upload and management, improving media handling efficiency.
- Designed a one-time product rating system for verified purchases, improving review authenticity.

Restaurant Ordering & Billing System | Java

- Developed a menu-driven console application simulating real-world restaurant ordering systems.
- Implemented business logic for billing, GST calculation, and payment workflows.
- Applied object-oriented programming principles for modular and maintainable code.
- Simulated multiple payment modes including UPI, Card, and Net Banking with OTP validation.

Riti2407 Project | MERN Stack | GitHub

- Enhanced frontend UI/UX by fixing component-level issues and improving dark mode compatibility.
- Implemented authentication and authorization using JWT, bcrypt, and protected routes.
- Added gamification features such as streak badges and engagement tracking to improve user interaction.

Edugen – Online Learning Platform | React, Tailwind CSS

- Built a responsive web application using React.js, JavaScript (ES6+), and Tailwind CSS.
- Followed component-based architecture and reusable UI patterns for scalable frontend development.
- Implemented UI filtering logic to improve UX and content navigation.
- Applied accessibility standards, responsive design principles, and modern frontend best practices.

EDUCATION

Bachelor of Computer Applications (BCA) | Alpha Arts & Science College, Chennai | 2025

- CGPA: **7.9 / 10**

Higher Secondary Certificate (HSC) | Grace Matric Hr. Sec. School, Chennai | 2022

- Percentage: **75%**

Secondary School Leaving Certificate (SSLC) | Grace Matric Hr. Sec. School, Chennai | 2020

- Percentage: **77%**

CERTIFICATION

MERN Full-Stack Development Training – Revamp Academy (2025)

- Built full-stack applications using MongoDB, Express.js, React.js, and Node.js.
- Gained hands-on experience in API integration, authentication, and database management.

ACHIEVEMENTS

- Solved 100+ DSA problems on LeetCode, improving algorithmic thinking, time-complexity analysis, and code optimization skills — <https://leetcode.com/u/Kumaravel4502/>
